An introduction to **MusikGarten** presented
by the **Community Music School** in Trappe.

From the moment they are born, you feel an overwhelming urge to give your children the world. Then life gets in the way. There are time and financial constraints, social pressures, and conflicting advice. How do you give your children the most beneficial experience within the constraints of modern life? Easy. You do it through music.

Musikgarten offers instruction which is just right for each age level – from your baby who benefits greatly from being part of a live music environment, right up through school-age children who delight in our group piano classes. Beginning simply with singing, moving, and exploring rhythm instruments, we add levels of complexity as the children grow, expanding the singing repertoire, teaching more complex dances, and building instrumental ensembles. Children coming through the Musikgarten program inherently “know” the music they eventually play in later years in music lessons.

**Class size is limited.
Registration is requested.
