

Celebrate NASA's 50th Anniversary of Apollo 11's Historic Moon Landing

Join Us for this Live Webcast Event!

July 15, 2019 | 4:00pm - 5:00pm

What was the sequence of this incredible mission? Where on the Moon did they land? And how did they return safely to Earth? Join us for a guided recreation of Apollo 11's journey to see how this mission was executed by crew members and mission control in Houston.

Commander Neil Armstrong spoke eloquently about what an honor it was for him and fellow crew members, Buzz Aldrin and Michael Collins, to accomplish president Kennedy's goal of reaching the Moon, supported by the combined efforts of four hundred thousand Americans, by the year 1969. This July 20th, we celebrate the 50th anniversary of that accomplishment.

The 1- hour webcast will be presented by Dr. Carter Emmart, Director of Astrovisualization at the American Museum of Natural History.
